

Safeguarding and Child Protection Policy

Our policy applies to all staff, paid and unpaid, working in the setting including volunteers. Concerned parents may also contact the setting's **Designated Person for Child Protection**.

AACC, fully recognise the responsibility to have arrangements in place to safeguard and promote the welfare of all children.

Our policy applies to all staff, paid and unpaid, working in the setting, including volunteers and students, all of whom have a vital role in safeguarding children. Concerned parents may also contact the setting's Designated Person/s for Child Protection.

This policy sets out how the setting complies with their statutory responsibilities relating to safeguarding and promoting the welfare of children who attend the setting. The policy will be reviewed regularly, annually as a minimum.

This policy provides staff, volunteers, students and parents/carers with details about specific safeguarding concerns that may impact on the welfare of children in their care or living locally. As a society we all have a duty to safeguard children but it is particularly important that those working or volunteering with children remain vigilant to the signs and indicators of abuse and neglect. Staff, volunteers and students should be familiar with the safeguarding procedures within the setting and know how to respond to concerns about children or adults.

General signs and indicators of Abuse and Neglect may include:

Significant changes in children's behaviour.

Deterioration in children's general well-being.

Unexplained bruising, marks, injuries or other signs of abuse or neglect.

Children's comments during their play or otherwise which give cause for concern.

Pattern of absences or frequent absences.

Any other reason to suspect neglect or abuse outside the setting for example in the child's home.

Inappropriate behaviour displayed by other members of staff or any other person working with the children.

We recognise that high self-esteem, confidence, supportive friends and good lines of communication with a trusted adult help to protect children. The setting will therefore:

- Establish and maintain an ethos where children feel secure, are encouraged to talk, and are actively listened to.
- Ensure children know that they can speak to all adults in the setting if they feel worried or are in difficulty.

The following, are the designated people responsible for AACC's Child Protection:

Designated Persons for Child Protection in our settings

Name: Angela Lindsay

Name: Louise Woolcott

Name: Kirsty Badcock

In the absence of these members then the following Designated Persons at Great Abington Primary School will be contacted.

Designated Persons at Great Abington Primary School - 01223 891362

Name: Guy Underwood

Name: Jess Robinson

Term	Definition
Safeguarding	<p><i>"Safeguarding is the action that is taken to promote the welfare of children and protect them from harm.</i></p> <p><i>Safeguarding means:</i></p> <ul style="list-style-type: none">• <i>protecting children from abuse and maltreatment</i>• <i>preventing harm to children's health or development</i>• <i>ensuring children grow up with the provision of safe and effective care</i>

	<ul style="list-style-type: none"> • <i>taking action to enable all children and young people to have the best outcomes.</i>
Child Protection	<p><i>“Child protection is the process of protecting a child identified as suffering from, or potentially suffering from, significant harm as a result of abuse or neglect.”</i></p>

Designated Persons for Child Protection (DP)

- A trained DP is available and on site (wherever possible) at all times the setting is open to be able to access relevant records and take the necessary action. Contingency arrangements will be put in place should the DP not be available (another DP will be on site or contactable by phone).
- All DPs will refresh their training every two years. In addition, DPs knowledge and skills will be refreshed regularly (at least annually) via information sources such as the DP Knowledge Hub, Child Protection Information Networks, the Early Years Safeguarding Conference and Cambridgeshire and Peterborough Safeguarding Children Partnership Board.
- The importance of the role of the DP is acknowledged by ensuring they have the time and training to undertake their duties.
- The [Safeguarding Partnership Board Cambridgeshire and Peterborough](#) procedures, [Working together to safeguard children 2018](#) and [What to do if you're worried a child is being abused](#) are adhered to. The DP has contact details for Cambridgeshire Children's Social Care and the Early Help Hub readily accessible for use when required. Bordering county Social Care and Early Help contact details are available, as required, for children who live outside of Cambridgeshire.

There are four main elements to our policy:

- **PREVENTION** through the support offered to children and the creation and maintenance of a whole setting protective ethos.
- **PROCEDURES** for identifying and reporting cases, or suspected cases, of abuse.
- **SUPPORT TO CHILDREN** who may have been abused.
- **PROMOTING A PROTECTIVE ETHOS**
 - Have a robust induction which includes all relevant aspects of safeguarding practice.
 - Know the names of the DPs and what their role includes.
 - Know how to record and pass on concerns about a child or adult.
 - Understand their individual responsibility to refer child protection concerns to relevant agencies as a matter of urgency if there is no DP present and/or they feel the child remains at risk of significant harm.
 - Attend basic child protection training every three years as a minimum and within 6 weeks of commencing employment. Training will contain details of the local

safeguarding procedures within Cambridgeshire and support staff to identify signs of possible abuse and neglect at the earliest opportunity and to respond to these in a timely and appropriate way.

- Receive regular and relevant updates on safeguarding practice, usually from their DP, at least annually.
- Understand the setting policy on babysitting for families who attend the setting.
- Ensure they are fully aware of the use of Mobile phone, Camera's and Technology Policy and support the setting in safeguarding children online.

Management

The committee/owner fully recognises their responsibilities regarding safeguarding and promoting the welfare of children. They will:

- Designate a committee member (where applicable) for safeguarding (a 'Safeguarding Officer') who will monitor the setting's child protection policy and overall practice and champion good practice in relation to child protection and safeguarding.
- Ensure that this policy is annually reviewed in conjunction with the setting's DPs.
- Undertake a safeguarding briefing from the DP upon election/ownership
- Individual committee members/owners will comply on election with Ofsted suitability check requirements including undertaking a DBS check.
- Complete Safer Recruitment training (at least one person who has recruitment responsibility).

Liaison with other agencies

The setting will:

- Work to develop effective links with relevant services to promote the safety and welfare of all children.
- Co-operate as required, in line with [Working together to safeguard children 2018](#), with key agencies in their enquiries regarding child protection matters including attendance and providing written reports at child protection conferences and core groups.
- Notify the relevant Social Care team immediately if there is an unexplained absence or there is any change in circumstances to a child who is subject to a Child Protection Plan.
- Notify the relevant Social Care team immediately if there are any further abuse or neglect concerns (such as fresh marks, bruises, or injuries) where a child is already subject to a Child Protection Plan or Child in Need Plan. It will not be assumed that Social Care is already aware of these additional concerns.
- Respond to requests for information about children in the setting's care from the Education Navigator at the Multi-Agency safeguarding Hub (MASH) or a Social Worker in a timely manner.

Record Keeping

The setting will:

Keep clear, detailed written records of concerns about children's welfare using the Log of Concern Form. Records should include:

- a clear and comprehensive summary of the concern;

- details of how the concern was followed up and resolved;
- a note of any action taken, decisions reached and the outcome.
- Records will be kept in individual child welfare files.
- Records will be stored securely and confidentially.
- During registration of each new child, ask for information about other settings the child currently or previously attended. The DP will make contact to request relevant safeguarding and welfare information is shared. This will be ongoing where children attend more than 1 setting concurrently.
- Unless it would place the child at risk of significant harm, parents will be informed that a Log of Concern Form has been completed, where it will be stored and what will happen to it when the child leaves the setting.
- Parents do not have an automatic right to access child welfare records and consideration will be given as to what the consequences of information sharing might be (in line with Information Sharing Guidance, 2018).

When a child leaves or moves to another setting

Their individual child welfare file will be transferred to the receiving school or setting using the following protocol:

- The file will be sent as soon as possible after the child has moved setting and marked 'Confidential, Addressee Only' and sent to the DP, if known, of the receiving setting/school. The file will be delivered by hand if possible; otherwise sent by delivery that can be tracked and signed for.
- The setting will contact the receiving setting/school by telephone to make them aware that there is a child welfare file and, once sent, ask them to confirm they have received the file. The setting will keep a record that the file has been received to be able to identify its location.
- Parents will be made aware that child welfare records will be transferred unless this would place the child at risk of acute harm.
- The setting will not keep a copy of transferred records, unless there are younger siblings for whom there are similar concerns about but will keep a record of the current file location and date the file was transferred.
- If individual child welfare files cannot be transferred for any reason, the setting will archive them for 25 years from the child's date of birth.
- All actions and decisions will be led by what is considered to be in the best interests of the child.

Confidentiality and information sharing

Information sharing is essential for effective safeguarding and promoting the welfare of children and young people. The DP will be guided by the the Department for Education (DfE) Guidance [Information sharing - Advice for practitioners](#) providing safeguarding services to children, young people, parents and carers July 2018.

Fears about sharing information will not stand in the way of the need to safeguard and promote the welfare of children and young people at risk of abuse or neglect. The UK General Data Protection Regulations (UK GDPR) and Data Protection Act 2018 do not

prevent, or limit, the sharing of information for the purposes of keeping children and young people safe:

- 'Information will be shared legally without consent, if the DP or a member of staff is unable to or cannot be reasonably expected to gain consent from the individual, or if to gain consent could place a child at risk.'
- relevant personal information will be shared lawfully if it is to keep a child or individual at risk safe from neglect or physical, emotional or mental harm, or if it is protecting their physical, mental, or emotional well-being.'

What information will be shared?

When making decisions about what information to share, the DP will consider how much information they need to release and the impact of disclosing information on the information subject and any third parties. Information should be proportionate to the need and level of risk. Only information that is relevant to the purposes will be shared with those who need it. This allows others to do their job effectively and make informed decisions.

Information sharing decisions must be recorded, whether or not the decision is taken to share. If the decision is to share, reasons should be cited including what information has been shared and with whom. If the decision is not to share, the DP will record the reasons for this decision and discuss them with the person requesting the information.

If a child discloses information that may indicate that they are at risk of abuse or neglect, the staff member will be clear that they cannot promise to keep the information a secret. The staff member will be honest with the child and explain that it will be necessary to tell someone else in order to help them and to keep them safe.

Communication with Parents

The setting will:

- Undertake appropriate discussion with parents prior to involvement of another agency unless the circumstances may put the child at further risk of harm.
- Contact Children's Social Care first if the setting believes that notifying parents about a safeguarding concern may place the child or another person at immediate risk of harm or prejudice the prevention or detection of crime. Further guidance on this can be found in the 'Effective Support for Children and Families in Cambridgeshire and Peterborough document'.
- Ensure that all parents/carers have an understanding of the responsibility placed on the setting and staff for safeguarding and child protection by ensuring that they receive a copy of this policy when registering their child at the setting.
- Record on the log of concern form what discussions have taken place with parents and if a decision was made not to discuss the matter with parents, the reason why not (circumstances may include if the DP is unable to or cannot be reasonably expected

to gain consent from the individual, or if gaining consent could place a child at risk of harm such as potential physical or sexual abuse).

Supporting Children

We recognise that any child may be subject to abuse or witness abuse and that mental health problems can, in some cases, be an indicator that a child has suffered or is at risk of suffering abuse, neglect or exploitation. Children may also find it difficult to develop a sense of self-worth and trust those around them. Some children may adopt inappropriate or abusive behaviours and that these children may be referred on for appropriate support and intervention.

The setting will support children through:

- Activities to encourage self-esteem, self-motivation and resilience.
- An ethos that actively promotes a positive, supportive and secure environment that values people.
- A behaviour policy aimed at supporting all children. All staff will agree on a consistent approach, which focuses on the behaviour of the child but does not damage the child's sense of self-worth. The setting will ensure that the child knows that some behaviour is unacceptable, but she/he is valued and not to be blamed for any abuse which has occurred.
- Liaison with other agencies which support the child and family such as Children's Social Care and District Teams.
- Promote supportive engagement with parents/carers in safeguarding and promoting the welfare of children, including where families may be facing challenging circumstances.
- Recognition that children living in a home environment where there is domestic abuse/violence, mental ill-health or substance misuse may be vulnerable and in need of support and protection.
- Monitoring children's welfare, keeping records and seeking advice or making a referral to other agencies, e.g., Children's Social Care, when necessary.

Domestic Abuse (DA)

DA is defined as: any incident or pattern of incidents of controlling, coercive or threatening behaviour, violence or abuse between those aged 16 or over who are or have been intimate partners or family members regardless of gender or sexuality. This can encompass but is not limited to the following types of abuse: Psychological, physical, sexual, financial and emotional. (Home Office, 2013)

The setting recognizes that where there is DA in a family, the child/young person will always be affected; the longer the DA continues, the greater the risk of significant and enduring harm, which they may carry with them into their adult life and relationships. DA can also affect children in their personal relationships as well as in the context of home life.

The setting will follow the procedures outlined in this policy if DA concerns arise, The DP will monitor vigilantly the welfare of children living in DA households, offer support to them and their parent/carers and contribute to any Multi-Agency Risk Assessment Conference (MARAC) safety plan as required.

Early Years Settings

Our setting is working in partnership with the Police and Cambridgeshire County Council (CCC) to identify and provide appropriate support to children who have experienced DA; this scheme is called Operation Encompass.

In order to achieve this, CCC Education Safeguarding Team will share police information of all DA incidents, where a child (attending our setting) was present, with our DP. On receipt of any information, the DP will decide on the appropriate support the child may require.

The Operation Encompass information is stored in line with all other confidential safeguarding and child protection information. All information sharing and resulting actions will be undertaken in accordance with the 'Cambridgeshire and Peterborough Joint Agency Protocol for Domestic Abuse – Notifications to Schools, Colleges and Early Years settings'.

If our setting understands that a sibling/s of the child attend other provision such as breakfast or after school clubs, we will contact the DP in this setting to share relevant and proportionate information about the DA concern.

Bruising, marks or injuries in pre-mobile babies

Research indicates that severe child abuse is six times more common in babies ages under one year than in children aged one to 4 years, and 120 times more likely than in the 5-13 year old age group. Our setting adheres to the Bruising in Pre-Mobile Babies Protocol published by Cambridgeshire and Peterborough Safeguarding Children Partnership Board.

Bruising, marks or injuries are the most common presenting features in physical abuse in children. The younger the child the higher risk that the bruising, mark or injury is non-accidental, especially where the child is under the age of 6 months. Bruising, marks or injury in any child NOT independently mobile should be taken as a matter for inquiry and concern by the DP. This is also relevant to older children who are not independently mobile by reason of a disability.

It is accepted that marks could be the result of birth trauma, birth marks or areas of skin pigmentation such as Mongolian Blue Spots. The setting will ensure that parent/carers are requested upon registration to inform them of any distinguishing marks that the child may have.

The setting recognizes that concerns may be raised about pre-mobile babies or older children who are not independently mobile by reason of a disability who do not attend the setting. Concerns may arise when younger siblings are present during drop off or collection of children who attend the setting.

Children with Special Educational Needs and /or Disabilities (SEND)

We recognize that, statistically, children with additional needs, special educational needs, emotional and behavioural difficulties and disabilities are most vulnerable to abuse. Setting staff who deal with children with complex and multiple disabilities and/or emotional and behavioural problems should be particularly sensitive to indicators of abuse.

Children with communication difficulties are also vulnerable to abuse because they are unable to express themselves to others. Instead such children will often exhibit changes in behaviours or signs and indicators of abuse. Staff will be trained to recognize these indicators. Where necessary, the setting will seek advice from other professionals and specialist services and provide additional training to staff in the use of Makaton, PECS or other communication systems.

Parents/Carers Misusing Drugs and/or Alcohol

Misuse of drugs and/or alcohol is strongly associated with the risk of significant harm to children, particularly when combined with other features such as domestic violence. If the setting has concerns about drug and/or alcohol abuse by a child's parents/carers they will follow appropriate procedures. This is particularly important if the following factors are present:

- Use of the family resources to finance the parent's dependency, characterised by inadequate food, heat and clothing for the children.
- Children exposed to unsuitable caregivers or visitors, e.g. customers or dealers
- The effects of drugs and/or alcohol leading to an inappropriate display of sexual and/or aggressive behaviour.
 - Chaotic drug and/or alcohol use leading to emotional unavailability, irrational behaviour and reduced parental vigilance.
- Disturbed moods as a result of withdrawal symptoms or dependency.
- Unsafe storage of drugs and/or alcohol or injecting equipment.
- Drugs and/or alcohol having an adverse impact on the growth and development of the unborn child.

Children Misusing Drugs or Alcohol

The discovery that a young person is misusing legal or illegal substances or reported evidence of their substance misuse is not necessarily sufficient in itself to initiate child

protection proceeding. The setting will consider such action in the following situations:
When there is evidence or reasonable cause:

- To believe the young person's substance misuse may cause him or her to be vulnerable to other abuse such as sexual abuse
- To believe the young person's substance related behaviour is a result of abuse or because of pressure or incentives from others, particularly adults
- Where the misuse is suspected of being linked to parent/carer substance misuse
- Where the misuse indicates an urgent health or safeguarding concern
- Where the young person is perceived to be at risk of harm through any substance associated criminality

Children with Family Members in Prison

The setting is committed to supporting children/young people who have a parent or close relative in prison and will work with the family to find the best ways of supporting the child. The setting recognises that children with family members in prison are at risk of poor outcomes including: poverty, stigma, isolation, poor mental health and poor attendance. The setting will treat information shared by the family in confidence and it will be shared on a 'need to know' basis. The setting will work with the family and the child to minimise the risk of the child not achieving their full potential.

Young Carers

The setting recognises that children who are living in a home environment which requires them to act as a young carer for a family member or a friend, who is ill, disabled or misuses drugs or alcohol can increase their vulnerability and that they may need additional support and protection.

The setting will: seek to identify young carers; offer additional support internally; signpost to external agencies; be particularly vigilant to the welfare of young carers and follow the procedures outlined in this policy, referring to Early Help or Social Care as required if concerns arise.

Online Safety

It is important that children and young people receive consistent messages about the safe use of technology and are able to recognise and manage the risks posed in both the real and the virtual world. Terms such as 'e-safety', 'online', 'communication technologies' and 'digital technologies' refer to all fixed and mobile technologies that adults and children may encounter, now and in the future, which allow them access to content and communications that could raise issues or pose risks to their well-being.

The issues can be categorised into three areas of risk:

- **Content** – being exposed to illegal, inappropriate or harmful material.
- **Contact** – being subjected to harmful online interaction with other users.
- **Conduct** – personal online behaviour that increases the likelihood of, or causes, harm.

Best practice:

- **Whole setting approach** – staff recognise and are aware of e-safety issues and the management team make online safety a priority.
- **Policies** – online safety policies and procedures are in place and implemented.
- **Monitoring and evaluation** – risk assessment is taken seriously and used to promote online safety. There are appropriate filters and monitoring systems in place to protect children from harmful online material.
- **Management of Personal Data** – data is managed securely and in accordance with the requirements of the GDPR and Data Protection Act 2018.

Honour- Based Violence (HBV):

So called ‘honour-based’ violence encompasses incidents which have been committed to protect or defend the honour of the family and/or community, including:

- Female Genital Mutilation
- Breast Ironing
- Forced Marriage

The setting takes these concerns seriously and staff are made aware of the possible signs and indicators that may alert them to the possibility of HBV through training. Staff are required to treat all forms of HBV as abuse and follow the procedures outlined in this policy.

Female Genital Mutilation (FGM)

FGM is a procedure involving the partial or total removal of the external female genitalia or other injury to the female genital organs. FGM is illegal in the UK. Any indication that a child is at risk of FGM, where FGM is suspected, or where the woman is over 18, will be dealt with under the child protection procedures outlined in this policy. Staff will report concerns to the DP, who will make appropriate and timely referrals to social care. In these cases, parents will not be informed before seeking advice and the case will still be referred to social care even if it is against the child or young person’s wishes. The Multi-agency

statutory guidance on female genital mutilation, 2020 will be followed In accordance with the Female Genital Mutilation Act, it is a statutory duty for professionals to report 'known' cases of FGM in under-18s which they identify in the course of their professional work to the police.

Breast Ironing

Breast ironing also known as 'Breast Flattening' is the process whereby young pubescent girls breasts are ironed, massaged and/or pounded down through the use of hard or heated objects in order for the breasts to disappear or delay the development of the breasts entirely. It is believed that by carrying out this act, young girls will be protected from harassment, rape, abduction and early forced marriage and therefore be kept in education. Much like FGM, Breast Ironing is a harmful cultural practice and is child abuse and is classified as physical abuse.

Forced Marriage

Forcing a person into a marriage is a crime in England and Wales. A forced marriage is one entered into without the full and free consent of one or both parties and where violence, threats or any other form of coercion is used to cause a person to enter into a marriage. Threats can be physical or emotional and psychological. A lack of full and free consent can be where a person does not consent or where they cannot consent (if they have learning disabilities, for example). Nevertheless, some perpetrators use perceived cultural practices as a way to coerce a person into marriage. Schools and colleges can play an important role in safeguarding children from forced marriage.

Child Exploitation: Extremism and Radicalisation

In 2010 the Government published The Prevent Strategy. This highlighted the need to safeguard children, young people and families from violent extremism and radicalisation. The setting recognises that children and young people are vulnerable to extremist ideology and radicalisation and that protecting children from this risk forms part of the setting's safeguarding procedures. The Prevent Duty, Departmental advice for schools and childcare providers', DfE (June 2015) will be followed.

Staff are required to be alert to changes in children's behaviour which could indicate they need help or protection. The committee/owner will ensure that the all staff have undertaken Prevent training (online).

Child Sexual Exploitation (CSE)

CSE is a form of child sexual abuse. It occurs where an individual or group takes advantage of an imbalance of power to coerce, manipulate or deceive a child or young person under the age of 18 into sexual activity (a) in exchange for something the victim needs or wants, and/or (b) for the financial advantage or increased status of the perpetrator or facilitator. The victim may have been sexually exploited even if the sexual activity appears consensual. CSE does not always involve physical contact; it can also occur through the use of technology. (Child Sexual Exploitation, Definition and Guide: DFE, 2017)

CSE can take many different forms from the seemingly 'consensual' relationship to serious organised crime involving gangs and groups. Potential indicators of CSE will be addressed within staff training, including raising awareness with staff that some young people who are being sexually exploited do not show any external signs of abuse and may not recognise it as abuse. Staff will follow the procedures outlined in this policy if concerns of CSE arise.

Child Criminal Exploitation (CCE)

CCE is a form of harm that is a typical feature of county lines activity. Drug networks or gangs exploit children and young people to carry drugs and money from urban areas to suburban and rural areas. CCE can occur even if activity appears to be consensual.

The setting will address indicators of CCE with staff through training. Staff will follow the procedures outlined in this policy if concerns of CCE arise.

The DP will complete the Safeguarding Partnership Board Exploitation Risk Assessment and Management Tool and refer to Children's Social Care if there is a concern that a young person may be at risk of CCE.

Child on Child Abuse including Sexual Violence and Harassment

Children and young people may be harmful to one another in a number of ways, this is classified as child on child (or peer on peer) abuse, this can include:

- Bullying (including cyberbullying)
- Physical abuse such as hitting, kicking, shaking, biting, hair pulling
- Sexual bullying
- Being coerced to send sexual images (sexting)
- Sexual assault

- Teenage relationship abuse
- Upskirting – where someone takes a picture under a person’s clothing (not necessarily a skirt) without their permission and or knowledge, with the intention of viewing their genitals or buttocks (with or without underwear) to obtain sexual gratification, or cause the victim humiliation, distress or alarm.

The setting recognise that sexual violence and sexual harassment can occur between two children of any age and sex. Sexual violence may include rape, assault by penetration or sexual assault. Sexual harassment refers to ‘unwanted conduct of a sexual nature’, such as sexual comments, sexual taunting or physical behaviour such as deliberately brushing against someone. Online sexual harassment may include nonconsensual sharing of sexual images and videos, sexualised online bullying, unwanted sexual comments and messages, sexual exploitation, coercion and threats.

The setting will:

- Be clear that child on child abuse, sexual violence and sexual harassment will not be tolerated.
- Provide training for staff on how to manage and report concerns.
- Make decisions on a case-by-case basis.
- Reassure victims that they are being taken seriously, offer appropriate support and take the wishes of the victim into account when decision making.
- Implement measures to keep the victim, alleged perpetrator and if necessary other children and staff members, safe. Record any risk assessments and keep them under review.
- Give consideration to the welfare of both the victim(s) and perpetrator(s) in these situations
- Liaise closely with external agencies, including police and social care, when required.

Privately Fostered Children

Private fostering is when a child under the age of 16, (under 18 if disabled) is provided with care and accommodation by a person who is not a parent, person with parental responsibility for them or relative in their own home for 28 days or more. The setting will follow the mandatory duty to inform the Local Authority of any ‘Private Fostering’ arrangements and refer to the Specialist Fostering Team.

Promoting a protective ethos

The setting will create an ethos in which children feel secure, their viewpoints are valued, they are encouraged to talk, and they are listened to.

This will be achieved in the following ways:

- All staff, including the DPs, are trained regularly to ensure skills and knowledge are up to date.
- Staff know how to respond to child protection concerns.
- Contribution to an inter-agency approach to child protection by working effectively and supportively with other agencies.
- Raising children's awareness and actively promoting self-esteem building, so that children have a range of strategies and contacts to ensure their safety.
- Using personal safety programmes, such as Protective Behaviours and the NSPCC PANTS campaign.
- Working with parents to build an understanding of the setting's responsibility to the welfare of the children.
- Ensuring the relevant policies are in place, i.e., the use of mobile phones and cameras, behaviour management, intimate care, whistleblowing, social networking.
- Being vigilant to the inappropriate behaviour of staff or adults working with children and ensuring that all staff and volunteers know the allegations procedure.
- Staff acting as positive role models to children and young people.
- Ensuring staff are aware of the need to maintain appropriate and professional boundaries in their relationships with children and parents/carers in line with our setting's staff code of conduct/behaviour policy.

Preventing unsuitable people from working with children and young people

The setting has a duty to ensure that people looking after children are suitable to fulfil the requirements for their role. The setting will follow safer recruitment practices including verifying qualifications and ensuring appropriate DBS and reference checks are undertaken. The setting will not allow people, whose suitability has not been checked, to have unsupervised contact with children.

Staff are expected to disclose any convictions, cautions, court orders, reprimands and warnings which may affect their suitability to work with children (whether received before or during their employment at the setting). This is checked and recorded during supervisions to ensure ongoing suitability.

These members of staff/committee have undertaken Safer Recruitment training:

Angela Lindsay; Alice Kirk, Louise Woolcott

Whistleblowing

The setting has a separate Whistleblowing Policy which aims to help and protect both staff and children by:

- Preventing a problem getting worse;
- Safeguarding children and young people;
- Reducing the potential risks to others.

The earlier a concern is raised, the easier and sooner the setting can take action. The responsibility for expressing concerns about unacceptable practice or behaviour rests with all staff, students and volunteers.

Allegation against a person who works or volunteers with children

An allegation may relate to a person who works or volunteers with children who has:

- behaved in a way that has harmed a child, or may have harmed a child
- possibly committed a criminal offence against or related to a child
- behaved towards a child or children in a way that indicates they may pose a risk of harm to children
- behaved or may have behaved in a way that indicates they may not be suitable to work with children.

If an allegation is made against a person who works or volunteers with children, the following action will be taken (refer to: 'Allegation against a person who works or volunteers with children' flowchart and guidance):

- The setting will ensure the immediate safety of the children.
- The setting will **not** start to investigate but will immediately contact the Local Authority Designated Officer (LADO): 01223 727967.
- If the LADO decides the matter is a child protection case, external/internal agencies (e.g., police) will be informed by the LADO and the setting will act upon the advice given to ensure that any investigation is not jeopardised.
- The setting will notify Ofsted of a significant event
- It may be necessary for the employer to suspend the alleged perpetrator. Suspension is a neutral act to allow a thorough and fair investigation.
- If it is agreed that the matter is not a child protection case, the setting will investigate the matter themselves, gaining HR advice as required.

The setting will ensure that any disciplinary proceedings against staff relating to child protection matters are concluded in full even when the member of staff is no longer employed at the setting and that notification of any concerns is made to the relevant agencies, the Disclosure and Barring Service (DBS) and included in references where applicable. For further information, refer to the setting's safer recruitment policy.

ADOPTION AND ANNUAL REVIEW OF THE POLICY
