

Safeguarding and Child Protection Policy

Introduction

Abington Annexe Community Childcare fully recognises the responsibility to have arrangements in place to safeguard and promote the welfare of all children.

Our policy applies to all staff, paid and unpaid, working in the setting, including volunteers and students, all of whom have a vital role in safeguarding children. Concerned parents may also contact the setting's Designated Person/s for Child Protection.

This policy sets out how the setting complies with their statutory responsibilities relating to safeguarding and promoting the welfare of children who attend the setting. The policy will be reviewed regularly, annually as a minimum.

This policy provides staff, including agency staff, volunteers, students and parents/carers with details about specific safeguarding concerns that may impact on the welfare of children in their care or living locally. As a society we all have a duty to safeguard children but it is particularly important that those working or volunteering with children remain vigilant to the signs and indicators of abuse and neglect. Staff, agency staff, volunteers and students should be familiar with the safeguarding procedures within the setting and know how to respond to concerns about children or adults.

We recognise that high self-esteem, confidence, supportive friends and good lines of communication with a trusted adult help to protect children. The setting will therefore:

- Establish and maintain an ethos where children feel secure, are encouraged to talk, and are actively listened to.
- Ensure children know that there are adults in the setting whom they can approach if they feel worried or in difficulty

Designated Safeguarding Leads:

Name: Angela Lindsay (Preschool Manager)

Name: Louise Woolcott (Finance Manager)

Name: Kirsty Badcock (Holiday Club Manager)

Name: Natatsha James (Preschool Deputy Manager)

Safeguarding Practice in our Setting

Designated Safeguarding Lead (DSL)

- A trained DSL is available and on site (wherever possible) at all times the setting is open to be able to access relevant records and take the necessary action. Contingency arrangements will be put in place should the DSL not be available (Primary school contacts below).
- All DSLs will refresh their training every two years. In addition, DSLs knowledge and skills will be refreshed regularly (at least annually) via information sources such as the DSL Knowledge Hub, Child Protection Information Networks, further relevant training and Cambridgeshire and Peterborough Safeguarding Children Partnership Board.
- The importance of the role of the DSL is acknowledged by ensuring they have the time and training to undertake their duties.
- The Cambridgeshire and Peterborough Safeguarding Children Partnership Board procedures, Working Together to Safeguard Children, 2018 and What to Do if You are Worried a Child is Being Abused, 2015 are adhered to. The DSL has contact details for Cambridgeshire Children's Social Care and the Early Help Hub readily accessible for use when required. Bordering county Social Care and Early Help contact details are available, as required, for children who live outside of Cambridgeshire.

In the absence of a staff member DSL, then the following Designated Safeguarding Lead at Great Abington Primary School will be contacted.

Designated Safeguarding Lead at Great Abington Primary School - 01223 891362

Name: Guy Underwood

Name: Jess Robinson

Name: Laura Lungley

Staff Members, Agency Staff, Volunteers and Students

- Have a robust induction which includes all relevant aspects of safeguarding practice.
- Know the names of the DSLs and what their role includes.
- Know how to record and pass on concerns about a child or adult.
- Understand their individual responsibility to refer child protection concerns to relevant agencies as a matter of urgency if there is no DSL present and/or they feel the child remains at risk of significant harm.
- Staff Members: Attend basic child protection training every three years as a minimum and within 6 weeks of commencing employment. Training will contain details of the local safeguarding procedures within Cambridgeshire and support staff to identify signs of possible abuse and neglect at the earliest opportunity and to respond to these in a timely and appropriate way.
- Receive regular and relevant updates on safeguarding practice, usually from their DSL, at least annually.
- Understand the setting policy on babysitting for families who attend the setting.
- Ensure they are fully aware of the Use of Mobile phone, Camera's and Technological Devices Policy and support the setting in safeguarding children online.

Management

The committee/owner fully recognises their responsibilities regarding safeguarding and promoting the welfare of children. They will:

- Designate a committee member (where applicable) for safeguarding (a 'Safeguarding Officer') who will monitor the setting's child protection policy and overall practice and champion good practice in relation to child protection and safeguarding.
- Ensure that this policy is annually reviewed in conjunction with the setting's DSLs.
- Undertake a safeguarding briefing from the DSL upon election/ownership
- Individual committee members/owners will comply on election with Ofsted suitability check requirements including undertaking a DBS check.
- Complete Safer Recruitment training (at least one person who has recruitment responsibility).

Liaison with other agencies

The setting will:

- Work to develop effective links with relevant services to promote the safety and welfare of all children.
- Co-operate as required, in line with Working Together to Safeguard Children 2018, with key agencies in their enquiries regarding child protection matters including attendance and providing written reports at child protection conferences and core groups.
- Notify the relevant Social Care team immediately if there is an unexplained absence or there is any change in circumstances to a child who is subject to a Child Protection Plan.
- Notify the relevant Social Care team immediately if there are any further abuse or neglect concerns (such as fresh marks, bruises or injuries) where a child is already subject to a Child Protection Plan or Child in Need Plan. It will not be assumed that Social Care are already aware of these additional concerns.
- Respond to requests for information about children in the setting's care from the Education Navigator at the Multi-Agency safeguarding Hub (MASH) or a Social Worker in a timely manner.
- Link with Designated Safeguarding Leads in other settings and schools where we work with the same children and families.

Record keeping

The setting will:

Keep clear, detailed written records of concerns about children's welfare using the Log of Concern Form. Records should include:

- a clear and comprehensive summary of the concern.
- details of how the concern was followed up and resolved.
- a note of any action taken, decisions reached and the outcome.
- Records will be kept in individual child welfare files.
- Records will be stored securely and confidentially.
- During registration of each new child, ask for information about other settings the child currently or previously attended. The DSL will make contact to request relevant safeguarding and welfare information is shared. This will be ongoing where children attend more than 1 setting concurrently.
- Unless it would place the child at risk of significant harm, parents will be informed that a Log of Concern Form has been completed, where it will be stored and what will happen to it when the child leaves the setting.
- Parents do not have an automatic right to access child welfare records and consideration will be given as to what the consequences of information sharing might be (in line with Information Sharing Guidance, 2018).

When a child leaves or moves to another setting

Their individual child welfare file will be transferred to the receiving school or setting using the following protocol:

- The file will be sent as soon as possible after the child has moved setting and marked 'Confidential, Addressee Only' and sent to the DSL, if known, of the receiving setting/school. The file will be delivered by hand if possible, otherwise sent by delivery that can be tracked and signed for.
- The setting will contact the receiving setting/school by telephone to make them aware that there is a child welfare file and, once sent, ask them to confirm they have received the file. The setting will keep a record that the file has been received to be able to identify its location.
- Parents will be made aware that child welfare records will be transferred unless this would place the child at risk of acute harm.
- The setting will not keep a copy of transferred records, unless there are younger siblings for whom there are similar concerns about but will keep a record of the current file location and date the file was transferred.
- If individual child welfare files cannot be transferred for any reason, the setting will archive them for 25 years from the child's date of birth.
- All actions and decisions will be led by what is considered to be in the best interests of the child.

Confidentiality and information sharing

Information sharing is essential for effective safeguarding and promoting the welfare of children and young people. The DSL will be guided by the the Department for Education (DfE) Guidance 'Information sharing - Advice for practitioners providing safeguarding services to children, young people, parents and carers' July 2018.

Fears about sharing information will not stand in the way of the need to safeguard and promote the welfare of children at risk of abuse or neglect. The UK General Data Protection Regulations (UK GDPR) and Data Protection Act 2018 do not prevent, or limit, the sharing of information for the purposes of keeping children and young people safe:

- 'Information will be shared legally without consent, if the DSL or a member of staff is unable to or cannot be reasonably expected to gain consent from the individual, or if to gain consent could place a child at risk.'
- relevant personal information will be shared lawfully if it is to keep a child or individual at risk safe from neglect or physical, emotional or mental harm, or if it is protecting their physical, mental, or emotional well-being.'

What information will be shared?

When making decisions about what information to share, the DSL will consider how much information they need to release and the impact of disclosing information on the information subject and any third parties. Information should be proportionate to the need and level of risk. Only information that is relevant to the purposes will be shared with those who need it. This allows others to do their job effectively and make informed decisions.

Information sharing decisions must be recorded, whether or not the decision is taken to share. If the decision is to share, reasons should be cited including what information has been shared and with whom. If the decision is not to share, the DSL will record the reasons for this decision and discuss them with the person requesting the information.

If a child discloses information that may indicate that they are at risk of abuse or neglect, the staff member will be clear that they cannot promise to keep the information a secret. The staff member will

be honest with the child and explain that it will be necessary to tell someone else in order to help them and to keep them safe. A note will be made of what information has been shared and with whom.

Communication with Parents

The setting will:

- Undertake appropriate discussion with parents prior to involvement of another agency unless the circumstances may put the child at further risk of harm.
- Contact Children's Social Care first if the setting believes that notifying parents about a safeguarding concern may place the child or another person at immediate risk of harm or prejudice the prevention or detection of crime.
- Ensure that all parents/carers have an understanding of the responsibility placed on the setting and staff for safeguarding and child protection by ensuring that they receive a copy of this policy when registering their child at the setting.
- Record on the log of concern form what discussions have taken place with parents and if a decision was made not to discuss the matter with parents, the reason why not (circumstances may include if the DSL is unable to or cannot be reasonably expected to gain consent from the individual, or if gaining consent could place a child at risk of harm such as potential physical or sexual abuse).

Supporting Children

We recognise that any child may be subject to abuse or witness abuse and that mental health problems can, in some cases, be an indicator that a child has suffered or is at risk of suffering abuse, neglect or exploitation. Children may also find it difficult to develop a sense of self-worth and trust those around them. Some children may adopt inappropriate or abusive behaviours and that these children may be referred on for appropriate support and intervention.

The setting will support children through:

- An ethos that actively promotes a positive, supportive and secure environment that values people.
- Activities to encourage self-esteem, self-motivation and resilience.
- A behaviour policy aimed at supporting all children. All staff will agree on a consistent approach, which focuses on the behaviour of the child but does not damage the child's sense of self-worth. The setting will ensure that the child knows that some behaviour is unacceptable, but she/he is valued and not to be blamed for any abuse which has occurred.
- Liaison with other agencies which support the child and family such as Children's Social Care and District Teams.
- Promote supportive engagement with parents/carers in safeguarding and promoting the welfare of children, including where families may be facing challenging circumstances.
- Recognition that children living in a home environment where there is domestic abuse/violence, mental ill-health or substance misuse may be vulnerable and in need of support and protection.
- Monitoring children's welfare, keeping records and seeking advice or making a referral to other agencies, e.g. Children's Social Care, when necessary.

Privately Fostered Children

Private fostering is when a child under the age of 16, (under 18 if disabled) is provided with care and accommodation by a person who is not a parent, person with parental responsibility for them or relative in their own home for 28 days or more. The setting will follow the mandatory duty to inform the Local Authority of any 'Private Fostering' arrangements and refer to the Specialist Fostering Team.

The earlier a concern is raised, the easier and sooner the setting can take action. The responsibility for expressing concerns about unacceptable practice or behaviour rests with all staff, students and volunteers.

Allegations against a person who works or volunteers in the setting

An allegation may relate to a person who works or volunteers with children who has:

- behaved in a way that has harmed a child, or may have harmed a child
- possibly committed a criminal offence against or related to a child
- behaved towards a child or children in a way that indicates they may pose a risk of harm to children
- behaved or may have behaved in a way that indicates they may not be suitable to work with children.

If an allegation is made against a person who works or volunteers with children, the following action will be taken (refer to: 'Allegation against a person who works or volunteers with children' flowchart and guidance):

- The setting will ensure the immediate safety of the children.
- The setting will **not** start to investigate but will immediately contact the Local Authority Designated Officer (LADO): 01223 727967.
- If the LADO decides the matter is a child protection case, external/internal agencies (e.g., police) will be informed by the LADO and the setting will act upon the advice given to ensure that any investigation is not jeopardised.
- The setting will notify Ofsted of a significant event
- It may be necessary for the employer to suspend the alleged perpetrator. Suspension is a neutral act to allow a thorough and fair investigation.
- If it is agreed that the matter is not a child protection case, the setting will investigate the matter themselves, gaining HR advice as required.

The setting will ensure that any disciplinary proceedings against staff relating to child protection matters are concluded in full even when the member of staff is no longer employed at the setting and that notification of any concerns is made to the relevant agencies, the Disclosure and Barring Service (DBS) and included in references where applicable.

General signs and indicators of Abuse and Neglect may include:

- Significant changes in children's behaviour.
- Deterioration in children's general well-being.
- Unexplained bruising, marks, injuries or other signs of abuse or neglect.
- Children's comments during their play or otherwise which give cause for concern.
- Pattern of absences or frequent absences.
- Any other reasons to suspect neglect or abuse outside the setting for example in the child's home.
- Inappropriate behaviour displayed by other members of staff or any other person working with the children.

Domestic Abuse (DA)

The Domestic Abuse Act 2021 introduces the first ever statutory definition of domestic abuse and recognises the impact of domestic abuse (DA) on children, as victims in their own right, if they see, hear or experience the effects of abuse.

All children can witness and be adversely affected by domestic abuse in the context of their home life where DA occurs between family members. Experiencing DA and/or violence can have serious, long lasting emotional and psychological impact on children. In some cases, a child may blame themselves for the abuse or may have had to leave the family home as a result.

Young people can also experience DA within their own intimate relationships. This form of child on child abuse is sometimes referred to as 'teenage relationship abuse'. Depending on the age of the young people, this may not be recognised in law under the statutory definition of 'domestic abuse' (if one or both parties are under 16).

Domestic Abuse is defined as: any incident or pattern of incidents of controlling, coercive or threatening behaviour, violence or abuse between those aged 16 or over who are personally connected regardless of gender or sexuality. This can encompass but is not limited to the following types of abuse: psychological, physical, sexual, financial and emotional, coercive or controlling behaviour.

The setting will follow the procedures outlined in this policy if DA concerns arise. The DSL will vigilantly monitor the welfare of children living in DA households, offer support to them and their parent/carers and contribute to any Multi-agency Risk Assessment Conference (MARAC) safety plan as required.

If you require further information, please click the link below.

[Local Domestic Abuse agency contact details](#)

Early Years Settings - DA

Our setting is working in partnership with the Police and Cambridgeshire County Council (CCC) to identify and provide appropriate support to children who have experienced DA; this scheme is called Operation Encompass.

In order to achieve this, CCC Education Safeguarding Team will share police information of all DA incidents, where a child (attending our setting) was present, with our DSL. On receipt of any information, the DSL will decide on the appropriate support the child may require.

The Operation Encompass information is stored in line with all other confidential safeguarding and child protection information. All information sharing and resulting actions will be undertaken in accordance with the 'Cambridgeshire and Peterborough Joint Agency Protocol for Domestic Abuse – Notifications to Schools, Colleges and Early Years settings'.

Bruising, marks or injuries in pre-mobile babies

Research indicates that severe child abuse is six times more common in babies ages under one year than in children aged one to 4 years, and 120 times more likely than in the 5-13 year old age group. Our setting adheres to the Bruising in Pre-Mobile Babies Protocol published by Cambridgeshire and Peterborough Safeguarding Children Partnership Board.

Bruising, marks or injuries are the most common presenting features in physical abuse in children. The younger the child the higher the risk that the bruising, mark or injury is non-accidental, especially where the child is under the age of 6 months. Bruising, marks or injury in any child NOT independently mobile should be taken as a matter for inquiry and concern by the DSL. This is also relevant to older children who are not independently mobile by reason of a disability.

It is accepted that marks could be the result of birth trauma, birth marks or areas of skin pigmentation such as Mongolian Blue Spots. The setting will ensure that parent/carers are requested upon registration to inform them of any distinguishing marks that the child may have.

The setting recognizes that concerns may be raised about pre-mobile babies or older children who are not independently mobile by reason of a disability who do not attend the setting. Concerns may arise when younger siblings are present during drop off or collection of children who attend the setting.

Children with Special Educational Needs and /or Disabilities (SEND)

We recognize that, statistically, children with additional needs, special educational needs, emotional and behavioural difficulties and disabilities are most vulnerable to abuse. Setting staff who deal with children with complex and multiple disabilities and/or emotional and behavioural problems should be particularly sensitive to indicators of abuse.

Children with communication difficulties are also vulnerable to abuse because they are unable to express themselves to others. Instead such children will often exhibit changes in behaviours or signs and indicators of abuse. Staff will be trained to recognize these indicators. Where necessary, the setting will seek advice from other professionals and specialist services and provide additional training to staff in the use of Makaton, PECS or other communication systems.

Parents/Carers Misusing Drugs and/or Alcohol

Misuse of drugs and/or alcohol is strongly associated with the risk of significant harm to children, particularly when combined with other features such as domestic violence. If the setting has concerns about drug and/or alcohol abuse by a child's parents/carers they will follow appropriate procedures. This is particularly important if the following factors are present:

- Use of the family resources to finance the parent's dependency, characterised by inadequate food, heat and clothing for the children.
- Children exposed to unsuitable caregivers or visitors, e.g. customers or dealers
- The effects of drugs and/or alcohol leading to an inappropriate display of sexual and/or aggressive behaviour.
- Chaotic drug and/or alcohol use leading to emotional unavailability, irrational behaviour and reduced parental vigilance.
- Disturbed moods as a result of withdrawal symptoms or dependency.
- Unsafe storage of drugs and/or alcohol or injecting equipment.
- Drugs and/or alcohol having an adverse impact on the growth and development of the unborn child.

Children Misusing Drugs or Alcohol

The discovery that a young person is misusing legal or illegal substances or reported evidence of their substance misuse is not necessarily sufficient in itself to initiate child protection proceedings.

The setting will consider such action in the following situations when there is evidence or reasonable cause:

- To believe the young person's substance misuse may cause him or her to be vulnerable to other abuse such as sexual abuse
- To believe the young person's substance related behaviour is a result of abuse or because of pressure or incentives from others, particularly adults
- Where the misuse is suspected of being linked to parent/carer substance misuse
- Where the misuse indicates an urgent health or safeguarding concern
- Where the young person is perceived to be at risk of harm through any substance associated criminality

Children with Family Members in Prison

The setting is committed to supporting children/young people who have a parent or close relative in prison and will work with the family to find the best ways of supporting the child. The setting recognises that children with family members in prison are at risk of poor outcomes including: poverty, stigma, isolation, poor mental health and poor attendance. The setting will treat information shared by the family in confidence and it will be shared on a 'need to know' basis. The setting will work with the family and the child to minimise the risk of the child not achieving their full potential.

Young Carers

The setting recognises that children who are living in a home environment which requires them to act as a young carer for a family member or a friend, who is ill, disabled or misuses drugs or alcohol can increase their vulnerability and that they may need additional support and protection.

The setting will: seek to identify young carers; offer additional support internally; signpost to external agencies; be particularly vigilant to the welfare of young carers and follow the procedures outlined in this policy, referring to Early Help or Social Care as required if concerns arise.

Online Safety

It is important that children and young people receive consistent messages about the safe use of technology and are able to recognise and manage the risks posed in both the real and the virtual world. Terms such as 'e-safety', 'online', 'communication technologies' and 'digital technologies' refer to all fixed and mobile technologies that adults and children may encounter, now and in the future, which allow them access to content and communications that could raise issues or pose risks to their well-being.

The issues can be categorised into three areas of risk:

- **Content** – being exposed to illegal, inappropriate or harmful material.
- **Contact** – being subjected to harmful online interaction with other users.
- **Conduct** – personal online behaviour that increases the likelihood of, or causes, harm.
- **Commerce** - risks such as online gambling, inappropriate advertising, phishing and/or financial scams.

Best practice

- **Whole setting approach** – staff recognise and are aware of e-safety issues and the management team make online safety a priority.
- **Policies** – online safety policies and procedures are in place and implemented.
- **Monitoring and evaluation** – risk assessment is taken seriously and used to promote online safety. There are appropriate filters and monitoring systems in place to protect children from harmful online material.
- **Management of Personal Data** – data is managed securely and in accordance with the requirements of the GDPR and Data Protection Act 2018.

Honour- Based Violence (HBA)

So called 'honour-based' abuse encompasses incidents which have been committed to protect or defend the honour of the family and/or community, including:

- Female Genital Mutilation
- Breast Ironing
- Forced Marriage

The setting takes these concerns seriously and staff are made aware of the possible signs and indicators that may alert them to the possibility of HBA through training. Staff are required to treat all forms of HBA as abuse and follow the procedures outlined in this policy.

Female Genital Mutilation (FGM)

FGM is a procedure involving the partial or total removal of the external female genitalia or other injury to the female genital organs. FGM is illegal in the UK. Any indication that a child is at risk of FGM, where FGM is suspected, or where the woman is over 18, will be dealt with under the child protection procedures outlined in this policy. Staff will report concerns to the DSL, who will make appropriate and timely referrals to social care. In these cases, parents will not be informed before seeking advice and the case will still be referred to social care even if it is against the child or young person's wishes. The Multi-agency statutory guidance on female genital mutilation, 2020 will be followed. In accordance with the Female Genital Mutilation Act, it is a statutory duty for professionals to report 'known' cases of FGM in under-18s which they identify in the course of their professional work to the police.

Breast Ironing

Breast ironing also known as 'Breast Flattening' is the process whereby young pubescent girls breasts are ironed, massaged and/or pounded down through the use of hard or heated objects in order for the breasts to disappear or delay the development of the breasts entirely. It is believed that by carrying out this act, young girls will be protected from harassment, rape, abduction and early forced marriage and therefore be kept in education. Much like FGM, Breast Ironing is a harmful cultural practice and is child abuse and is classified as physical abuse.

Forced Marriage

Forcing a person into a marriage is a crime in England and Wales. A forced marriage is one entered into without the full and free consent of one or both parties and where violence, threats or any other form of coercion is used to cause a person to enter into a marriage. Threats can be physical or emotional and psychological. A lack of full and free consent can be where a person does not consent

or where they cannot consent (if they have learning disabilities, for example). Nevertheless, some perpetrators use perceived cultural practices as a way to coerce a person into marriage. Schools and colleges can play an important role in safeguarding children from forced marriage.

The legal age of marriage was raised in February 2023 to 18 years. It means that 16 and 17 year olds will no longer be allowed to marry or enter a civil partnership, even if they have parental consent. It is now illegal and a criminal offence to exploit vulnerable children by arranging for them to marry, under any circumstances whether or not force is used.

Child Exploitation: Extremism and Radicalisation

In 2010 the Government published The Prevent Strategy. This highlighted the need to safeguard children, young people and families from violent extremism and radicalisation. The setting recognises that children and young people are vulnerable to extremist ideology and radicalisation and that protecting children from this risk forms part of the setting's safeguarding procedures. The Prevent Duty, Departmental advice for schools and childcare providers', DfE (June 2015) and Revised Prevent Duty Guidance for England and Wales, HM Government will be followed.

Staff are required to be alert to changes in children's behaviour which could indicate they need help or protection. The committee will ensure that all staff have undertaken Prevent training (online). The settings DSL should be aware of local procedures for making a Prevent referral.

Child Sexual Exploitation (CSE)

CSE is a form of child sexual abuse. It occurs where an individual or group takes advantage of an imbalance of power to coerce, manipulate or deceive a child or young person under the age of 18 into sexual activity (a) in exchange for something the victim needs or wants, and/or (b) for the financial advantage or increased status of the perpetrator or facilitator. The victim may have been sexually exploited even if the sexual activity appears consensual. CSE does not always involve physical contact; it can also occur through the use of technology. (Child Sexual Exploitation, Definition and Guide: DfE, 2017)

CSE can take many different forms from the seemingly 'consensual' relationship to serious organised crime involving gangs and groups. CSE can be a one off occurrence or a series of incidents over time and range from opportunistic to complex organised abuse. It can involve force and/or enticement-based methods of compliance and may, or may not be accompanied by violence or threats of violence.

Potential indicators of CSE will be addressed within staff training, including raising awareness with staff that some young people who are being sexually exploited do not show any external signs of abuse and may not recognise it as abuse. Staff will follow the procedures outlined in this policy if concerns of CSE arise.

Child Criminal Exploitation (CCE)

CCE is a form of harm that is a typical feature of county lines activity. Drug networks or gangs exploit children and young people to carry drugs and money from urban areas to suburban and rural areas. CCE can occur even if activity appears to be consensual.

The setting will address indicators of CCE with staff through training. Staff will follow the procedures outlined in this policy if concerns of CCE arise.

The DSL will complete the Safeguarding Partnership Board Exploitation Risk Assessment and Management Tool and refer to Children's Social Care if there is a concern that a young person may be at risk of CCE.

Child Sex Trafficking (CST)

CST is a repeated process involving two or more adults in which a child is recruited and transferred to a location in order to be sexually exploited.

Child on Child Abuse including Sexual Violence and Harassment

Children and young people may be harmful to one another in a number of ways, this is classified as child on child abuse, this can include:

- Bullying (including cyberbullying, prejudice-based and discriminatory bullying).
- Physical abuse such as hitting, kicking, shaking, biting, hair pulling or otherwise causing physical harm.
- Abuse within intimate partner relationships.
- Causing someone to engage in sexual activity without consent, such as forcing someone to strip, touch themselves sexually or to engage in sexual activity with a third party.
- Sexual bullying, violence or harassment.
- Consensual and non-consensual sharing of nudes and semi nude images and/or videos.
- Sexual assault
- Teenage relationship abuse
- Upskirting – where someone takes a picture under a person's clothing (not necessarily a skirt) without their permission and or knowledge, with the intention of viewing their genitals or buttocks (with or without underwear) to obtain sexual gratification, or cause the victim humiliation, distress or alarm.

The setting recognise that sexual violence and sexual harassment can occur between two children of any age and sex from primary to secondary age and beyond. It can occur online. It can also occur through a group of children sexually assaulting or sexually harassing a single child or group of children. Sexual violence may include rape, assault by penetration or sexual assault. Sexual harassment refers to 'unwanted conduct of a sexual nature', such as sexual comments, sexual taunting or physical behaviour such as deliberately brushing against someone. Online sexual harassment may include nonconsensual sharing of sexual images and videos, sexualised online bullying, unwanted sexual comments and messages, sexual exploitation, coercion and threats.

Children who are victims of sexual violence and sexual harassment will likely find the experience stressful and distressing. This will, in all likelihood, adversely affect them and will be exacerbated if the alleged perpetrators attend the same setting. Sexual violence and sexual harassment exist on a continuum and may overlap, they can occur online and face to face (both physically and verbally) and are never acceptable.

Addressing inappropriate behaviour (even if it appears to be relatively innocuous) can be an important intervention that helps prevent problematic, abusive and/or violent behaviour in the future.

The setting will:

- Be clear that child on child abuse, sexual violence and sexual harassment will not be tolerated.
- Provide training for staff on how to manage and report concerns.
- Make decisions on a case-by-case basis.
- Reassure victims that they are being taken seriously, offer appropriate support and take the wishes of the victim into account when decision making.
- Implement measures to keep the victim, alleged perpetrator and if necessary other children and staff members, safe.
- Record any risk assessments and keep them under review.
- Give consideration to the welfare of both the victim(s) and perpetrator(s) in these situations
- Liaise closely with external agencies, including police and social care, when required.
- Ensure staff are aware that some groups are potentially more at risk. Evidence shows girls, children with special educational needs and disabilities (SEND) and LGBT children are at greater risk.
